MOBILE MODULAR PLUS ADD-ON SERVICES

Plus offers all the add-on services you need to furnish your workspace, from en- Suites , desks to conference room necessities, to breakroom basics.

Plus has a full catalog of options for setting up your modular building efficiently.

OUR PANELS ARE MADE OF

- **Polystyrene**

Lightweight polystyrene foam provides excellent thermal insulation in numerous applications, such as building walls and roofing, refrigerators and freezers, and industrial cold storage facilities. Polystyrene insulation is inert, durable and resistant to water damage.

- **Rockwool**

Rockwool insulation offers several advantages, such as excellent performance in terms of both thermal and noise insulation. It is also quite durable and resistant to fire, mold, mildew

Chromadex

These sheets offer improved edge protection and is less prone to cracking that may lead to corrosion. When choosing Chromadek, purchasers can be assured that the product has been tested and evaluated. The galvanized steel that makes up the sheets are chemically cleaned and treated to enhance corrosion properties.

Polyurethan

The advantages of insulating with Polyurethan insulation is:

- Excellent thermal resistance
- Fast and easy installation
- Very low percentage of disposal or wasted materials
- Very suitable pricing
